Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: As per the decision of the Board of Patent Appeals and Interferences, "we find that because Morin only suggests next possible words and not predetermined commands, the combined teachings of Gould and Morin would not have suggested to an artisan means responsive to a detected non-predetermined speech query for attempting to locate predetermined commands applicable to said query as recited in claim 1." (Independent claims 6 and 11 recite the "locate predetermined command" limitation also).

3. This application is in condition for allowance except for the following formal matters:

The cross-reference to related applications (page 1 of the specification) contains attorney docket numbers when referring to the applications and a blank line for the filing date of an application. Applicant is respectfully requested to update the cross reference to provide the correct application serial number, US Patent Number (if applicable), and/or date of each related application applicant wishes to refer. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
